"I, for one, can't wait for the game to come out. I actually like thinking that Elden Ring makes weird little games that actually, one day, might make it big. When the game comes out, I'll probably have a new date for making LARP costumes." (The Escapist) "Spelunky is a great game, but it's even better when you realize it's a hack and slash dungeon crawler that's built on the same spiritual foundation as Diablo, creating a great game that manages to set new standards." (GameSpot) "Elden Ring is a cult phenomenon on the same level as 'Myst.' A game unlike any other I've ever played, it deserves the recognition." (Game Informer) "At times you'll feel like you're playing an action-RPG, while at other times it feels like you're playing top-down action-RPGs in the vein of the classic Sega Genesis games. It's a little bit of everything, and it all holds together very well." (IGN.com) "Elden Ring is bold, varied, tense, frantic, satisfying, and everything a fan of the genre could hope for. This is hardcore action-RPG done with reckless abandon, the kind of game that can be either brilliant or obnoxious, depending on whether you're into it or not. Electric Impotent By Danielle DeMentri. An excerpt from the book. In high school, I was always the girl they liked the most. Girls would call me the "average kind" and tell me that I was "safe" to talk to. I'd done a few things in my life before high school: I was in drama club and was competing on stage, I'd been in the show choir, and I had been in a couple of different groups outside of school like the Mormon Singers and the Pre-Teen Lake Wobegon Civil Rights Org. These were one-year clubs that we represented before a larger organization like Boy Scouts, Girl Scouts, or Little League. I had more than my fair share of friends that I knew were going places in life. I was in the thick of high school. But then Chris came into my life. Chris had been in a wheelchair since birth. He had one leg, a hip replaced at eleven years old, his speech was affected by a stroke, and it was obvious that his brain was not working properly. Chris was perpetually the subject of everyone's jokes. He would laugh along with everyone about his various non-walking disabilities

Enjoy!A new approach for the synthesis of near-infrared-emissive N,O,S-triarylamines. A new approach for the synthesis of a family of strong NIR-emissive N,O,S-triarylamines, which contain a >5(1) ring system, is presented. The key synthesis protocol consists of the acid-catalyzed condensation of aryl bromides, aryl thioacetates, and the respective aromatic nucleophiles in the presence of trifluoroacetic acid. The solvent effect, acidity, and relative stability of the arylamino products play important roles during the reaction mechanism. The resulting bis-thioamides were characterized in the solid state and in solution by X-ray crystal structure analysis, UV-vis-NIR spectroscopy, and cyclic voltammetry. The target triarylamines showed interesting photoluminescence properties in the solid state and in solution.;TEST_OUTPUT: ;STD_LOGIC_ARITH:=0 ;STD_LOGIC_UNSIGNED:=0 ;STD_LOGIC_SIGNED:=0 ;STD_LOGIC_SIGNED_UNSIGNED:=1 ;STD_LOGIC_UNSPECIFIED:=1 ;TEST_SYNTAX:=STD_LOGIC ;TEST_FPGA_SYNTAX:= %THIS IS AN unsigned SIGNED TEST %' ; fpga_synthesis_unit [[... Team

Tell A Tale, LLC is a team of indie game developers, and we created our own engine, which we managed to make less powerful than our competitors. We're first of all interested in providing a quality game, while considering the budget. Our goal is to be able to prototype rapidly and deliver a new game version every week.

We created our own engine, using tools we already knew, experience, and used in other projects. The engine we created is equipped for rendering both 2D and 3D scenes, and with the help of the various tools, we're able to switch, depending on the situation. Our engine is a triple-buffered engine, with a tile-map. It's possible to display your own tilesets in 2D/3D. The gameplay uses a top-down view. It is possible to flip in any position the gameplay, allowing you to be more alert.

Our work is divided into at least five teams, each one responsible for a different part of
