Enzyme-linked immunosorbent assay (ELISA) kits for the detection of IgG antibody to Toxoplasma gondii in feline serum samples were evaluated. Three ELISA kits were tested: those from Safegene (Safeguard Toxoplasma IgG ELISA; Bion Diagnostics) and Agra-Tech (RaT, ToxoRa, Toxo-R&D, CA). The performance of these kits was found to be similar for 9,942 serum samples from cats known to be infected with T. gondii, all of which were also positive for latex agglutination (LA), while 99.5% were also positive by immunofluorescence assay (IFA). Of the 180 sera from cats from a T. gondii-

The company on Wednesday posted a report by a law firm on Chinese hackers targeting political campaigns, candidates and lawmakers over the past five years. The report by the law firm Perkins Coie details unsuccessful hacks and related malware tools on the campaigns of former senator and presidential candidate Hillary Clinton, former vice president Joe Biden, Sen. Bernie Sanders and Green Party candidate Jill Stein. "None of our clients had any prior knowledge of these attacks or of Perkins Coie's investigation," Christina Riviello, senior director of corporate communications at Perkins Coie, said in a written statement Wednesday. "However, as we have done in the past and will continue to do in the future, we will not be able to comment publicly on any client relationships or matters that may put them in legal jeopardy." The report shows
