“In just five hours, I was able to create a character with a fully customizable appearance, and it felt more like a full-fledged RPG rather than a mobile game.” “The dungeon in Entrance Hall has been filled with all sorts of things, and it took me hours of clicking to get there.” “In fact, this method of storytelling actually makes the game last longer: as you explore dungeons, the experience carries over from one to the next, so you’ll spend less time backtracking if you decide to go again.” “The story has a lot of layers, and is told through a variety of different mediums.” “After accumulating enough materials to build a simple weapon and a few pieces of armor, I was finally able to build a shield.” “The issue in this game, then, is that it is difficult to control the movements of your avatar and the camera, and it can be difficult to tell what exactly the app is trying to tell you.” “Even playing the demo, I found myself getting impatient with the camera, but I love that there’s no in-app purchase or anything of that kind.” “In the MMO section, everything here is picked to you by the AI.” bff6bb2d33
