'Target printer' is not set in the printer properties window in LibreOffice Calc. If I click 'Properties' it will show up in LibreOffice. I do not know which "Target printer" to use as there is no 'set as default printer' option. This is a screenshot of LibreOffice Calc: A: First, you have to specify a printer as the target. To set a printer as the target, click on the green icon with the triple arrows to the right of the "Printer" menu. Then set the printer as the target. Then, in LibreOffice Calc, go to File->Print or press Ctrl+P and choose the printer you

---

have just set as the target. On Killing On Killing, also published under the title Killing in War and Killing by Force: A History of the Modern World from 1918 to the Present, is a 2007 collection of short essays by John Keegan, a British historian who is an emeritus professor at the University of Oxford. It was published by Granta in the United Kingdom and HarperCollins in the United States. Overview The essays are based on Keegan's acceptance of the award of the James Russell Lowell Prize from the American Academy and Institute of Arts and Letters, an award given for a brief piece or series of essays that is difficult to classify. The articles span twenty-one years, in chronological order, from his undergraduate study at Trinity College, Cambridge, to his military service with the Royal Tank Regiment. One of the essays, "Corporal Suicide in Vietnam", is a collection of wartime reminiscences. The group of essays is divided into sections based on themes, such as War, Killing, and Killing by Force,

---

Self-Deception, and The Use of Reason. The overall theme of the collection is the effect of modern technology on killing. Reception

David Gibson of The New York Times commented that the essays in the collection explore "the many and various ways that killing can be accomplished: by hand, by machine, by electrified wire, by chemical bomb and napalm; from trench raids to aerial bombing, from artillery to nuclear weapons, from the assassination of monarchs to the elimination of a nasty rival."

Chris Lehmann of the London Times described the collection as "a masterful tribute to the tenacity of life." References
