african food making is a vast and diverse, it has its roots in many countries across the continent but, its broad and unique appearance is said to be that of those who have been the first to adapt it to their specific cultures. due to the lack of space for all the foods in my kitchen, i have to make a choice. armed with the information, though, people can make their own decisions. they can decide whether to invest the extra time or money to implement the clean cooking solution that makes the most sense for their situation, their environment, and their family, as well as their pocketbook. the #cookcleanforkenya campaign will also share the stories of the people in kenya who are already making the change. and it will remind people that only 6% of the kenyans have clean cookstoves today and that clean cooking is currently for the poor. the #cookcleanforkenya campaign is timed to launch just before the world clean energy week, from september 25th to october 3rd. launching today, the campaign will include sample recipes written by susan kamau which will be shared with the social media community (via social media links), as well as a full

---

set of available recipes on the #cookcleanforkenya website. launched by global alliance for clean cookstoves (gacc) and supported by sky, a division of news corporation and a business partner in the world's busiest woman (wwb), the goal is for this campaign to reach around 200,000 people across kenya. we expect to see a spike in searches and shares to the #cookcleanforkenya hashtag on twitter and facebook. our hope is to reach hundreds of thousands of people who are ready to make the change and learn more about clean cooking in kenya and global.
