
Selena Gomez Playboy Dergisi Fotolar

In her recent video, Gomez says she has spoken out before because women are too often shamed for speaking up. Playboy is an example of one of those labels. She isn't just a stripper, she says. She is a whole person, and she wants her story to be heard. It was a hard ride, says Gomez, and no one knows that better than her. Life as a teen pop icon was particularly challenging when she started getting work so young. She started at the top of a major label, aged only 18, with a stringer of top songs, plenty of money, an enormous social media following, and a unique, charismatic aura. The pressure to deliver hit after hit pushed Gomez to the edge. She felt like her own songs—with their easy melodies and pop sensibilities—were suffering in the public conscience. She says she came to a point where she couldn't figure out how to write a song for her high school friends, who never really had thought about what it meant to be popular. Gomez assembled a team of songwriters, longtime friends who owed her money for her songs, to write the song she wanted. Then she placed calls to radio programmers, asking them to try her new single. At first, it didn't go anywhere. Then, suddenly, the song was everywhere. We are sitting in the office that is a converted mockup of Selena's family house in the Hollywood Hills. Her publicist, who knows the exact placement and particulars of every picture and object in this house, moves the chairs around. In the past few years, the public has become increasingly familiar with Gomez's complicated personal and romantic history. But the general public still hasn't really seen her at her most vulnerable. Behind the death masks are the emotional wounds that make Gomez's public so compelling and tragic.

Selena Gomez Playboy Dergisi Fotolar

we are talking about her leaked pictures, playboy porn photos, love magazine pics, paper mag shoot, naked instagram selfies, topless twitter images, nude snapchats, david lachapelle cover and many more. why did you decide to pose for playboyfor me,it was[that i was]still perceived like, oh, youre that mall girl. [laughs.] which was really frustrating.although im very proud of my success how i started, all of that butas a woman trying to bring new music to lighththat was really all anyone wanted to talk about: whats the malls been like did you like the mall and i was like,really i came off that tour and all of a sudden i got the call from playboy,i was going through a divorce as a woman, i was like, that is a great idea!how did it affect your careerit was a confidence booster. i never thought that id be posing nude in playboy to work my career or push my music, it seemed a little bizarre to me [at first] but when im 80 years old, im going to look back on these pictures and think wow, that was really cool. but it definitely did work. a lot of tv shows that id been asking to do, my pr people were trying to get me on there for the new album [2000s the color of silence], and no bites from the view to a lot of different shows. but as soon as i posed for playboy, we couldnt stop the phone ringing. it worked. it wasnt too surprising when kim kardashian stripped down for the december 2007 issue of playboy. but, with all the other outrageous things in her life, we had totally forgotten! unlike some celebs, kardashian, who appeared nearly a decade ago, takes pride in her photos for the publication. she even posted pictures from the shoot on her website and app last year, commenting awww, i look like a baby. lol! 5ec8ef588b
