I have a form with many inputs and a select, and I want to make a

default value of the date with a future date. I have a variable that stores the default value and I was trying to update it everytime the date is selected by the user. I'm not sure how to update the date when the date of the date is changed. new Vue({ el: '#app', data: { dateInicial: null, }, methods: { datePicker() { 2edc1e01e8

Games to Play with Puppies. Dogs can be adorable pets and they are very useful in a household. And they can give a lot of joy and happiness to you and your family members. If you are new to owning a dog, then you must be a bit worried about how to train your dog. It is simple and easy to train a dog. All you need to know is that you should know dog obedience, training, and behavior. Keep Reading... In this article, we will be talking about How to Train a Puppy. If you have a puppy then it is a great experience. When you begin to train your puppy, you can see your puppy in a different perspective. You will also be able to teach your puppy to come to your command, sit, lay down, lie down, roll over, shake, etc. These are basic commands for puppies. And when the time comes that your puppy is older and it has completed a few training sessions, then you can teach your puppy to fetch. When we talk about small dogs, there are different kinds of dogs. We can divide them into various groups. So, we will be discussing the main different kinds of dogs. And, we will talk about How to Train Small Dogs. Best 10 Dog Breeds There are various dog breeds that are small in size. So, what are these dog breeds? We will list the best small dog breeds.
